03 SHORT CLUSTER DESCRIPTION

Silesia Automotive & Advanced Manufacturing (SA&AM) is a Silesian collaboration platform for the development of modern, sustainable industry – the largest automotive and one of the largest industrial clusters in Poland. It brings together more than 350 participants representing some 95,000 employees and PLN 93 billion in combined annual turnover. The Cluster connects industrial and technology partners to build business, innovation and knowledge partnerships, with a focus on automation, robotics, digitalisation, advanced manufacturing and green transformation.

European Funds
for Smart Economy

Republic
of Poland

Co-funded by the
European Union

04 WHAT WE OFFER

01 – TECHNOLOGY & INNOVATION

Automation, robotics, digitalisation, advanced manufacturing and green transformation, delivered with the Cluster's industrial and research participants.

02 – BUSINESS & SUPPLY CHAINS

B2B matchmaking, identification of technology providers and industrial partners, and support in opening new market opportunities.

03 – KNOWLEDGE & SKILLS

Best-practice exchange, benchmarking, training programmes and industry–academia cooperation.

04 – INTERNATIONAL & CLUSTER COOPERATION

Cluster-to-cluster partnerships, joint initiatives, and EU and international projects.

05 WHAT WE ARE LOOKING FOR

- Industrial and technology partners for business, innovation and knowledge partnerships.
- Clusters and industry organisations for cluster-to-cluster partnerships and joint initiatives.
- New market opportunities and supply-chain partners for cluster participants.
- Partners for EU and international projects, and for industry–academia cooperation.

06 POTENTIAL AREAS OF COOPERATION WITH EGYPT / AFRICA

Automation, robotics and digitalisation

Modernisation of manufacturing through automation, robotics and digital solutions supplied by cluster participants.

Green transformation of industry

Cooperation on sustainable and resource-efficient manufacturing and the green transformation of industrial operations.

Industrial partnerships and supply chains

B2B matchmaking between Egyptian and African companies and Polish technology providers and industrial partners.

Skills, benchmarking and cluster cooperation

Training, benchmarking and best-practice exchange, cluster-to-cluster partnerships and joint EU / international projects.

07 ACHIEVEMENTS / REFERENCES

- The largest automotive cluster and one of the largest industrial clusters in Poland: 350+ participants, 95,000 employees, PLN 93 billion combined annual turnover.
- 15 years of continuous industry collaboration in Silesia, Poland's largest manufacturing region.
