cybersecurity, ITSM, ITAM, CMBD, helpdesk

For over 18 years our flagship product, **Axence nVision®** software, has been meeting the key needs of administrators and IT security officers in terms of **network and user monitoring, hardware and software inventory, remote technical support and data protection against leakage**. Our solutions are present in many regions of the world and used by over 3500 regular customers: in the private sector, government administration and public institutions.

Axence nVision® provides a huge number of functionalities from a single console, ensuring unparalleled comfort and ease of use. The modular structure makes it possible to adapt the program to the current needs of the organization, ensuring security and meeting the highest standards in selected areas of IT management (e.g. ITSM, ITAM, CMBD, SAM, and HelpDesk).

software development, VR/AR/XR, IoT/M2M, AI, hardware

The product offered by **BikeHud Sp. z o. o.** is related to the safety of bikers on the roads. We are using Artificial Intelligence and novel optical techniques to offer **specialised glasses with little HUD screen.**

On the screen, the user can observe information about the calories and kilometres as well as a little map or potential obstacles. Users can communicate with the device with their own voice.

Moreover, we are developing a special training application aligned with the glasses and offering training tips.

We would like to decrease the number of fatalities observed in the accidents with bikers and provide our users with an efficient and convenient tool by which they can make their own trainings more effective.

Data Center Solutions, Telecom Solutions, Structured Cabling Systems, Fiber Optic Systems, Management Systems, Access Control Systems, Environmental Monitoring Systems

BKT ELEKTRONIK is a **leading European producer of Data Center and Telecom passive networking solutions.**

Our scope is manufacturing, design and supply of:

✓ Data Center solutions

BKT4DC Data Center Racks, Aisle Containment, Micro Data Center, Container Data Center, Access Control Systems, Environment Monitoring Systems, AC systems (Inrow, CRAC, CRAH), BKT Smart PDU-s (managed and monitored)

✓ Outdoor aluminum cabinets BKT AluCab, stainless steel cabinets (water and dust proof)

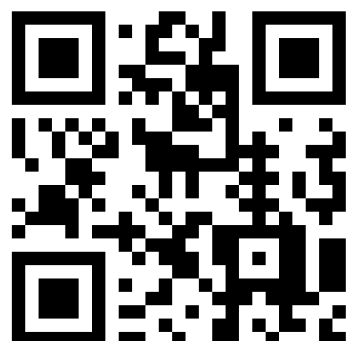

✓ Telecom solutions (High Density ODF-s, FO panels, connectivity, joints etc.)

✓ Floor standing cabinets BKT SRS and BKT SSRS

✓ Wall hanging cabinets BKT TOP

✓ Indoor cabinets BKT InCab (water and dust proof)

✓ Certified cat.5e-cat 8.2.cabling and fiber cabling systems

software development, IoT/M2M, hardware

Discover Blue Bolt , the cutting-edge app for the real estate market  .

Our solution offers:

- ✓ seamless smartphone access,
- ✓ parking reservations,
- ✓ room and desk bookings,
- ✓ building newsfeed and real-time notifications to keep users informed and engaged.

Own stand: H23-A31

We manufacture our own devices, ensuring quick, reliable, and affordable integration into any type of building – whether it's an office tower, residential complex, coworking space, or coliving project. Blue Bolt is compatible with nearly any existing system, making it the perfect fit for properties of all ages and sizes.

Stand out from the competition, optimize building efficiency, and provide modern, tech-forward services to your users. With Blue Bolt, transforming your property into a smart building has never been easier.

IoT/M2M, AI, cybersecurity, SOC audits

BW Advisory Ltd., based in PL with offices in Poland and the UAE, **stands at the forefront of specialized technology, information security, and GRC & Audit.**

Renowned for our detailed audits, our seasoned 12-person team excels in various sectors, handling projects with varied scopes and legal contexts. We're **experts in managing reputational risks**, particularly in regulated markets with a focus on information security and internal control systems.

Our services include thorough **SOC 1, SOC 2, SOC 3 and other SOC audits** across multiple sectors like finance, energy and ICT, as well as comprehensive IT and security audits emphasizing strong internal controls. We excel in **GRC system integration** and **business failure analysis**, offering insights into potential risks. Our team also specializes in **international compliance and cybersecurity standards**. With a history of executing sophisticated projects in both private and public sectors, including work for high risk profile institutions and developing security protocols for critical installations, BW Advisory Ltd combines top-tier expertise with a commitment to client success. We aim to be a reliable partner in the realms of technology, security, and compliance, ensuring effectiveness, security, and adherence to international frameworks.

software development, IoT/M2M, blockchain

Caruma specializes in **blockchain solutions**, focusing on **Web 3.0 technologies**. Our cutting-edge tools transform sectors like the **sharing economy, waste management, and digital product passports**.

We create new marketing opportunities through utility NFTs, offering unique brand experience, enhanced customer engagement, and verified product authenticity.

By leveraging the Skey Network Ecosystem, we ensure secure data management, transparent transactions, and decentralized applications.

Our solutions empower cities, municipalities, and private enterprises to harness the full potential of blockchain technology.

Experience digital transformation with Caruma and the SkeyNetwork Ecosystem.

software development, fintech

CashDirector is **an award-winning fintech transforming the banking and accounting industry, making it useful for micro and small companies in managing their success.**

We build & operate win-win-win PLATFORMs to address the challenges faced by banks, SMEs and accountants. Thanks to our solution banks attract new SME customers and increase this segment profitability by offering enriched online banking services. SME clients save time and money by getting a FREE accounting SaaS as an add-on to their business account.

Our traction: \$12m ARR, 230k SME users.

Our key banking clients: mBank, BNP Paribas, Credit Agricole, PKO BP, Millennium Bank, Pekao SA.
