Bygg Reis Deg 2023 in Lillestrom

Sustainable net-zero construction - for the planet, for the user, for the economy

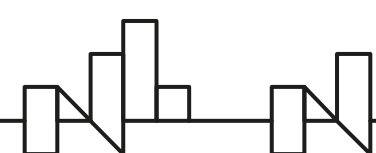

Elin Hansen

Head of circular economy

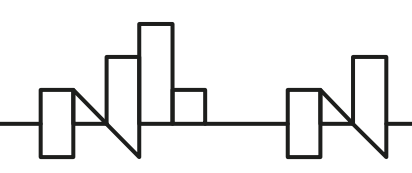

Circular priorities towards net-zero construction

- Market development for reuse
- Less incineration of plastics
- Climate partnership collaboration

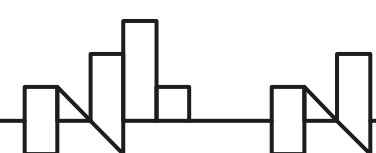

1. Market development for reuse

 **OMBYGG**

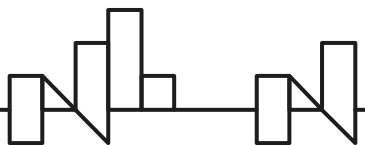

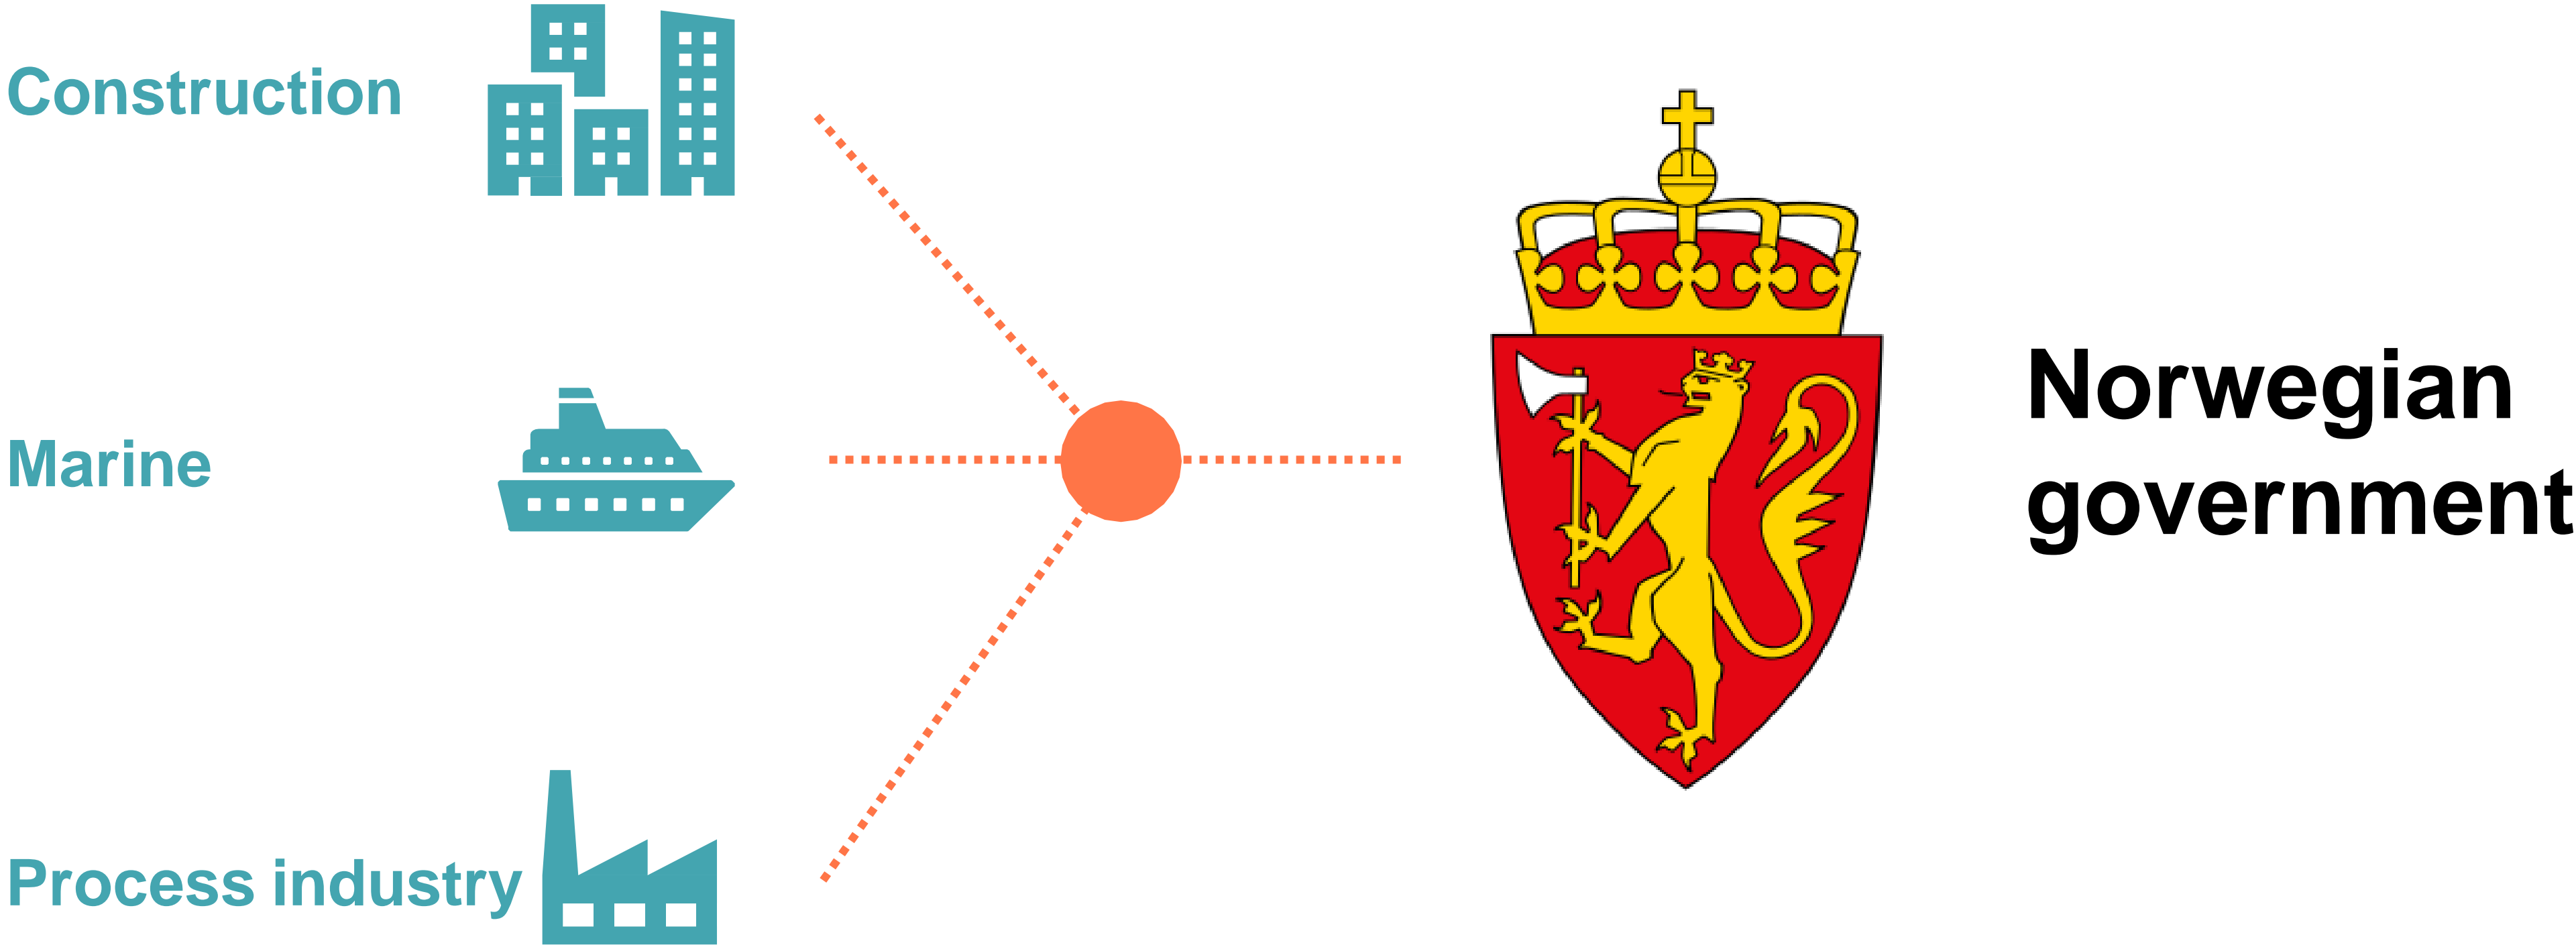

1. Market development for reuse

2. Less incineration of plastics

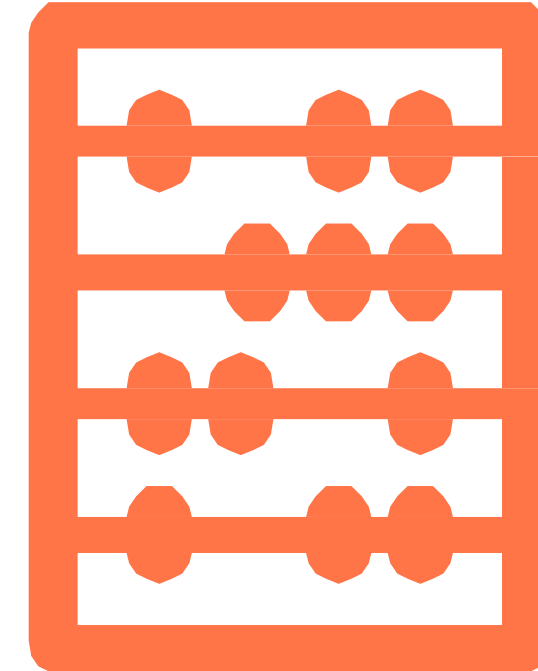

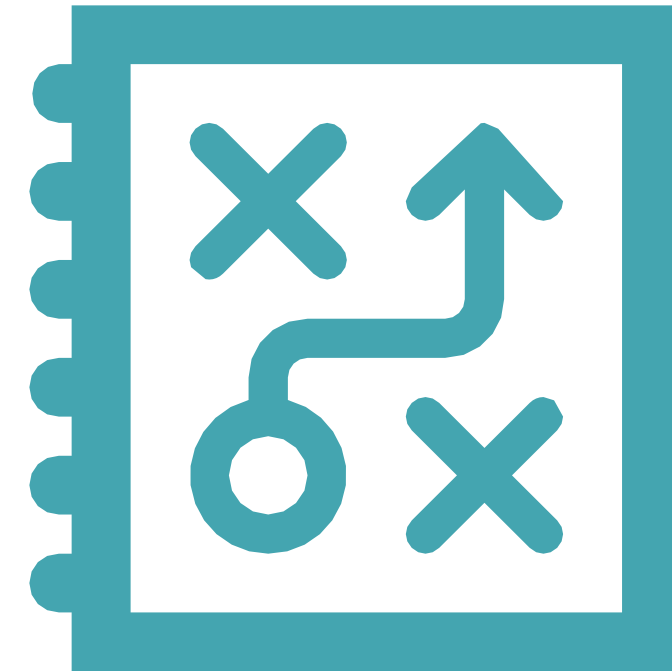

3. Climate partnership collaboration

3. Climate partnership collaboration

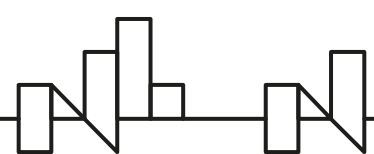

Best practice register for circular solutions in construction

Make it binding, use as benchmark for **green procurement**

Sector carbon budgets according to national reduction targets

Use partnership to figure out how to **distribute regionally**

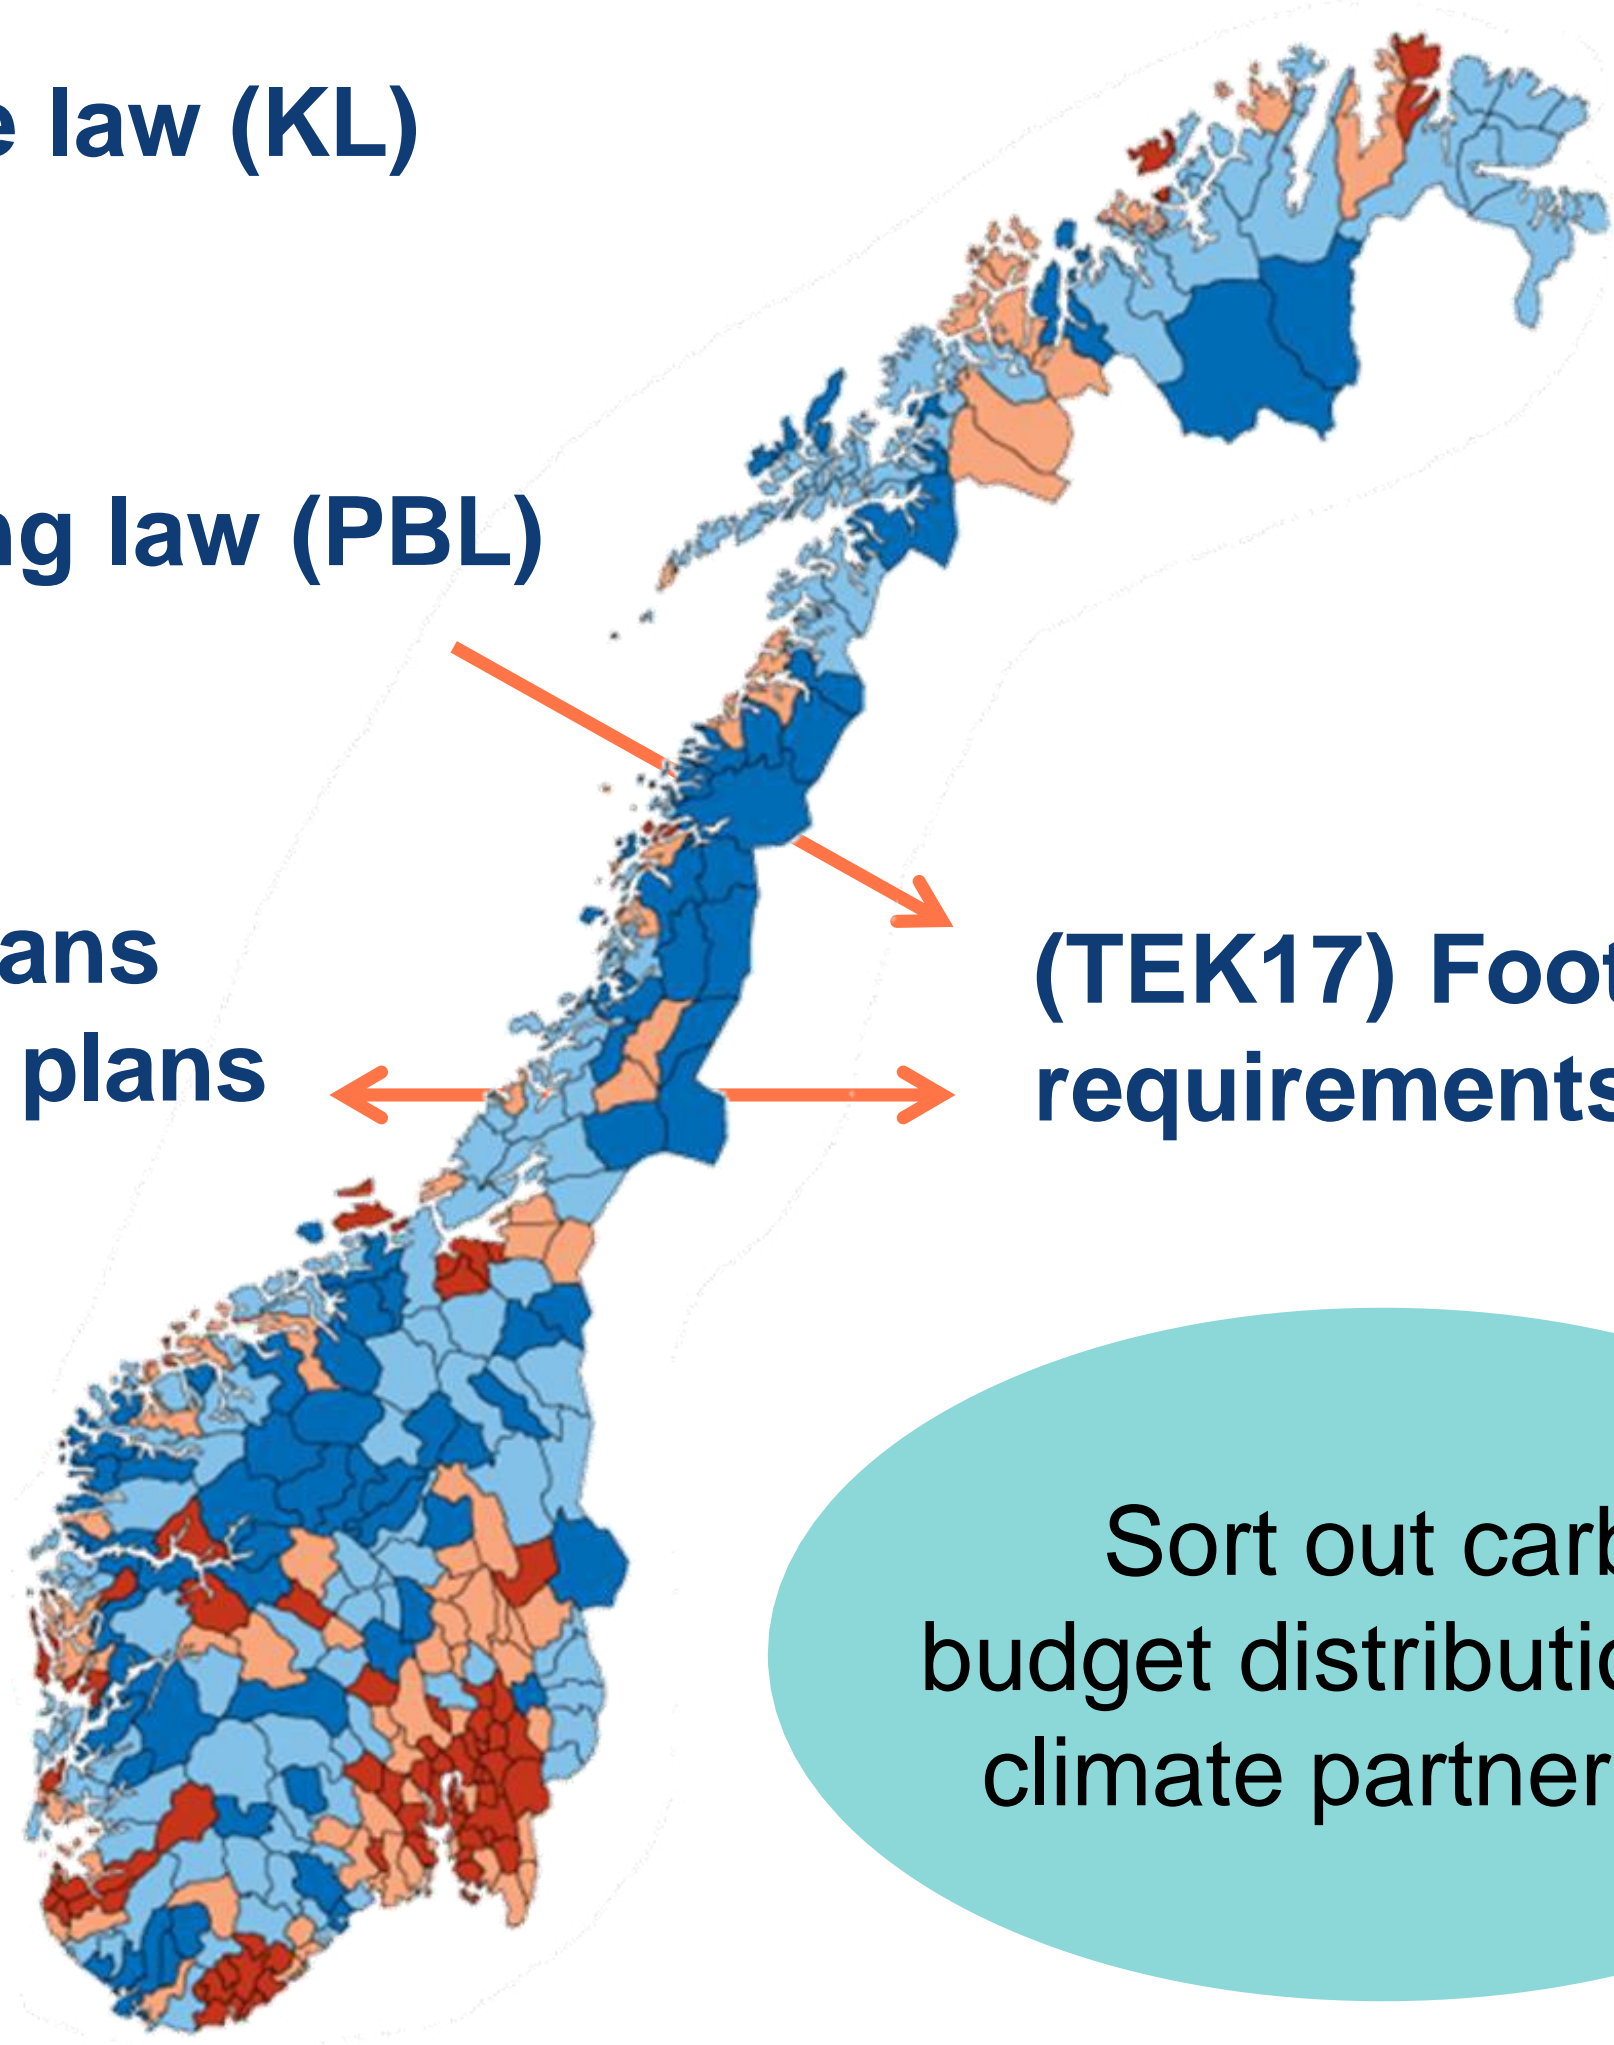

Climate law (KL)

Planning law (PBL)

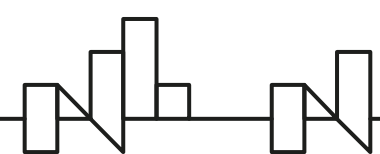

**Area plans
Zoning plans**

(TEK17) Footprint requirements

Sort out carbon budget distribution via climate partnership
